TWO DOLLARS PER YEAR, IN ADVANCE. ADVERTIGING BATES MADE ENGWY ON APPLICATION.

The RATES we have established for advertising will be strictly adhered to in every instance. They are as low as charged by a majority of the papers in the West, and as low as any paper furnished on a firm and lasting basis, with a large circulation, will do business. We think business men can get value received by advertising with us. We ask no one to patronize us out of charity, and do not want a man's money unless we give him value received. We could easily fill our columns with foreign advertisements, humbugs, patent medicines, etc., at less than our regular rates. But we hope that we never will be compelled to do so. Nothing speaks so well for a town and the enterprise of its citizens—its growth and prosperity—as the columns of the local paper well filled with home advertisements of home trade and business. We shall charge all alike, foreign and local, and shall not deviate from our established rates. No display type larger than Pica will be used in these columns, and in no case will cuts, or black and unseenly illustrations be admitted into this paper.

Round and round fly the screeching gulls,
Deeper and deeper the strong prow silps,
No eye sees how the bark goes down;

She notes the gulls sail screaming by, Feels the wind blow her yellow hair, And counts the clouds in the changeful sky.

A ship in her dreams sails fair and fast, Nearing and nearing the port at horse, Crowding all sail as she cuts the waves, Leaving behind her white swicks of foam, She sees on the deck her lover stand, Dreaming like her of the tender hour When he shall clasp and hold her his own, Heart of his heart, of his life the flower.

She muses thus till the sun gors down.

Till the sky and waves have in twilight kissed.

engagement. At that period there stood, in South Carolina, a plain and unassuming house; it was a one-story building neatly whitewashed, and surrounded by a fence. The garden contained many choice flowers; and the beautiful honey-suckle shaded the doors and windows. It was the home of Mrs. Heath, who lived with her two daughters, while her son George was in Washington's army fighting for free-

Kate, the eldest of the daughters, was a beautiful girl of sixteen summers; her auburn hair hung in graceful curls down her shoulders, and her face beamed with kindness, while her eves shone like stars that lit up the azure vaults of heaven.

One evening as Kate was standing at the cottage door, she beheld two mounted officers approaching. They were richly dressed, and one of them she recognized as Lord Rawdon, the commander of the British forces in that part of the country. They rode up to her, and Rawdon bent over his saddle and said, in a kind voice, "Well, miss, you can let me have the use of a room for a few minutes?"

"Yes, sir, our house is open to you." "Come, colonel, let us hasten to business," said Rawdon, dismounting, Will do a general banking business. It was a dangerous undertaking, and she knew if she was caught in the act of listening she would be treated as a spy, and perhaps executed, for Lord Rawdon knew no mercy. She cautiously approached the door and looked through the crevice. Rawdon and the colonel were seated before a small table, on which lay maps. They were examining them closely, while Rawdon DOUGLAS AVENUE HOUSE, was explaining them to the colonel. 'Here is Green's camp," said he, "and

Of course the Emperor also immediately declared war, and became an ally of Russia and of England, against which latter country

Mr. Greelev had actually begun hostilities already, because the queen in her speech from the throne had declared the Tribune's advocacy of a tariff on pig iron incendiary and calculated to disturb the peace of nations. Unhappily this was not the full measure of our disasters. The president had sent to the emperor of Austria a copy of his book, "What I Know," etc., with his autograph upon a fly-leaf. The emperor mistook the signature for a caricature of the Austrian eagle, and he readily joined in the war against the United States; while France was provoked to the same act by the fact that voked to the same act by the fact that when the French minister came to call on Mr. Greelev to present him his credentials the president, who was writing an editorial at the time, not comprebending the French language, mistook the ambassador for a beggar, and, without looking up, handed him a quarter and an order for a clean shirt.

Col. Fisk and the Newsboy

Stories of Col. Fisk are constantly in circulation, some true, others not; but couldn't keep clean if he washed him- a little incident which occurred a few months before his death is perhaps one of the most touching that has ever been given to the public. This one Mrs. Fisk takes especial pleasure in recalling, illustrating, as it does, her husband's kindness of heart and readiness of sympathy and help to those who needed aid. Col. Fisk had often noticed in Twenty-third street a little crippled newsboy, and one day he spoke to him in his bluff, off-hand manner.

"Well, my boy, how is business?"
"Not very good, sir," was the reply. What is the matter?"

"Why, you see I'm lame and I can't run, and the other boys get ahead of me, and I can't sell my papers very

The effect of tidal waves, which are caused by the gravitation of lighting and the state of tidal waves. and, in fact, the terrestrial day is lengthened by reason of the friction of the tides, and it is destined in the remote future to give about 480 hours between sunrise and sunset. The earth is also losing molecular motion by radiation. That some terrestrial heat is lost without compensationand very slowly of course-can hardly be doubted, and for the state of things thus ultimately to be produced we may find a parallel in the present condition of the moon, that appears to afford an example of the universal death which in an inconceivable distant future awaits the entire solar system. Girls--by a Boy. Girls are the most unaccountablest things in the world-except women. Like the wicked flea, when you have cipher clean over in improper fractions, and my teacher says I do it first-rate, but I can't cypher out a girl, proper or improper, and you can't either. The only rule in arithmetic that hits their case in the double rule of two. They are as full of Old Nick as their skin can hold, and they would die if they couldn't torment somebody. When they try to be mean they are as mean my hand-these men are accused of as pasley, though they ain't as mean as they let on, except sometimes, and then they are a good deal meaner. The only way to get along with a girl when she comes at you with her nonsense is to give her tat for tit, and that will flummux her, and when you get a girl flummuxed she is as nice as a new pin. A This was followed by another burst girl can sow more wild oats in a day than a boy can sow in a year, but girls get their wild oats sowed after a while, which boys never do, and then they settle down as calm and placid as a

mud puddle. But I like girls first-rate, and I guess the boys all do. I don't care how many tricks they play on me-and they don't care either. The boity-toitiest girls in the world can't always boil over like a glass of soda. By and by they will get into the traces with someships, such a day has passed.
